

A BETTER WAY

By Aaron Crabb and Sue C. Smith

All my life I've made decisions
I was the captain of my soul
Sailed on my own sea of reason
Thought I knew which way to go
But I was headed for destruction
On the rocks of my own pride
Then the maker of creation saw my desperate situation
And He saved my life

I found a better way
In the hand that leads me through the darkest night
I found a better way
In the one whose love is now my guiding light
Jesus set my course for Heaven
He changed my direction
Now I only need to trust him and obey
When He became the Master of my fate
I found a better way

When I trusted my own wisdom
It didn't get me anywhere
Strength and goodness only left me
Adrift on oceans of despair
Now that Jesus is my Savior
I'm eternally secure
Though the storms may rage around me
Since the moment Jesus found me
Of this one thing I am sure

Repeat chorus two times
