

## **TRIAL BY FIRE**

By Joel Lindsey

Lord I feel the heat  
Of a quickening flame  
I don't understand  
But I call on your name  
I've learned not to question  
The things you allow  
For the life of a christian  
Is yours anyhow

And I won't be consumed  
In this trial by fire  
For I am persuaded my God will supply  
The mercy and courage that victory requires  
And I'll walk on in triumph from this trial by fire

I've seen desert days  
When the rains wouldn't come  
And I've faced some giants  
I could never out run  
But I am still standing here day after day  
This may be a trial but there's joy on the way

And I won't be consumed  
In this trial by fire  
For I am persuaded my God will supply  
The mercy and courage that victory requires  
And I'll walk on in triumph from this trial by fire
